ACADEMIC PROJECTS

PCOS Awareness Initiative – Global Perspectives Team Project

June 2023 – Feb 2024

SVKM JV Parekh International School | Team Size: 5 | Role: Web Developer & Researcher

- Researched the impact of PCOS on women's lifestyles and possible treatments.
- Designed and developed a fully responsive awareness static website using HTML, CSS, and JavaScript to present research findings.
- Conducted interviews with experts and created informative content.
- Co-managed Instagram page [@overcoming_pcod](#) to share educational posts and resources.

INDEPENDENT PROJECTS

FutureRead AI Tarot Reading Web App – Amazon GenAI Hackathon

July 2025

- Created a mystical, AI-driven tarot reading website that animates card flipping in real-time.
- Integrated GPT-based tarot interpretations with premium, Apple-inspired UI design.
- Employed GSAP for visually immersive transitions and animations, enhancing user engagement.
- Tech Stack: Flask, Bootstrap 5, GSAP, Google Fonts, PostgreSQL, HTML, CSS, JS.

Z-Lang (GenZDictionary) – CS50 Final Project

June 2025

- Built a dynamic web app for discovering and learning Gen Z slang, with user submissions and an admin review system.
- Implemented routes for browsing, submitting, and moderating slang with a responsive, modern design.
- Incorporated search and slang explanation features using Flask templates and custom SQL queries.
- Tech Stack: Flask, SQLite, HTML/CSS, JavaScript.

ConvoNote AI-Powered Meeting summarizer – Microsoft AI agents Hackathon

April 2025

- Engineered a web app that transcribes meeting audio, summarizes key insights, and generates downloadable PDF reports with a confidence heatmap.
- Implemented multi-tab navigation, speaker analysis, and advanced insight suggestions using Azure AI.
- Embedded secure cloud storage for audio uploads and automated PDF generation with dynamic heat indicators.
- Tech Stack: React, Tailwind CSS, Node.js (Azure Functions), Azure OpenAI, Azure Speech-to-Text, Azure Blob Storage, HTML, CSS, JS

COMMERCIAL PROJECTS

Residential Society Portfolio Website – Juhu-Versova Link Road

Aug 2025

- Developed a responsive and visually modern portfolio website to showcase redevelopment plans, amenities, and progress updates.
- Built a secure admin panel enabling the society committee to upload and manage project-related documents (PDFs, notices, architectural layouts, etc.).
- Synchronized structured data presentation and real-time content updates for residents.

- Tech Stack: HTML, CSS, JavaScript, Flask, Cloudinary.

Learning Management System (LMS) – Skincare Institute

July 2025

- Crafted a secure web-based LMS to manage course materials, student data, and internal resources.
- Architected admin dashboards, document upload modules, and access control for staff and trainees.
- Improved data organization efficiency by 40% through structured database design.
- Received Rs. 11111 as a token of appreciation.
- Tech Stack: Flask, Supabase, Bootstrap, HTML, CSS, JS, Cloudflare.
